Trips over 50 kilometers are subject to a \$2.75/km (8ft & 10ft wide) or \$4.75/km (12ft & 14ft wide) charge one way. Free setup includes leveling the building, starting with one corner at ground level and raising it up to a maximum of 3 feet. If leveling requires 1 foot or less, pressure treated wood may be used. Otherwise, customer may supply concrete blocks which are placed on top of the ground, or we can supply concrete blocks for \$4.00 each.

In very rare cases, underground footers may be required by local building codes. Old Hickory Buildings of Canada does not offer digging or footer services and these are not included in free set up, however we can work with customer or contractor when required for an additional cost.

Please contact your local Building Inspector and/or Homeowner's Association for information on requirements and restrictions. The customer will be responsible for the mileage charge as well as the cost of any additional trips.
